

## Conducting a Job Hazard Analysis (Course 706)

### Job Safety Analysis Training

If your company is working towards OSHA's SHARP or VPP certification, you need to be conducting a Job Hazard Analysis (JHA) on all hazardous tasks. This course is designed to introduce the important steps in conducting a Job Hazard Analysis (also called Job Safety Analysis) for the purpose of writing a safe job procedure. It includes a discussion of conducting a risk assessment, prioritizing jobs, writing the steps, determining hazards, developing safety precautions, and tips on writing safe job procedures.

During the training **six (6) topics** will be discussed:

1. **Prepare to Conduct the JHA;**
2. **List the Steps;**
3. **Describe the Hazards;**
4. **Develop Preventive Measures;**
5. **Write the Safe Job Procedure;**
6. **Improve the JHA Process.**

**Certificate : OSHAcademy Course Completion Certificate.**

**Required prior education : None (Target Audience: Committee Member, Committee Leader, Trainer, Supervisor, Manager).**

**Course Duration : 6 Hours (0.6 IACET CEUs).**
