

Effective OSH Committee Meetings (Course 707)

Safety Committee Meeting Process

If your company has a safety committee, it's critical that meetings are conducted in an efficient and effective manner. This course covers the safety committee meeting process, including the role and purpose of the safety committee, preparing and conducting the meeting, success tools, handling conflict, and activities after the meeting. With this course, you will learn how to develop the techniques and tools to conduct an interesting meeting filled with motivated members.

During the training **seven (7) topics** will be discussed:

1. **Rule Requirements;**
2. **Role and Responsibility;**
3. **Before the Meeting;**
4. **Conducting the Meeting;**
5. **Safety Committee Success Tools;**
6. **Handling Problem Situations;**
7. **After the Meeting.**

Certificate : OSHAcademy Course Completion Certificate.

Required prior education : None (Target Audience: Committee Member, Committee Leader).

Course Duration : 5 Hours (0.5 IACET CEUs).
