

Effective Safety Committee Operations (Course 701)

Safety Committee Training

Effective safety committees are required in several states and provide substantial benefits to companies and other organizations. Unfortunately, most safety committees do not understand their purpose or the role they play in assisting management to provide a safe and healthful workplace. This course helps the student understand his/her responsibilities as a safety committee member. It will help the safety committee chairperson successfully lead a safety team and develop a world-class safety culture.

During the training **eight (8) topics** will be discussed:

1. **Safety Committee Role, Purpose, and Function;**
2. **Getting Started;**
3. **Motivating Involvement;**
4. **Education and Training;**
5. **Hazard Analysis Tools;**
6. **Problem Solving Techniques;**
7. **Effective Recommendations;**
8. **Effective Meetings.**

Certificate : OSHAcademy Course Completion Certificate.

Required prior education : None (Target audience includes Committee Members, Committee Leaders, and Managers).
