

Electrical Safety for Technicians and Supervisors (Course 715)

Electrical Safety Training

This course describes the hazards of electrical work and basic approaches to working safely. You will learn skills to help you recognize, evaluate, and control electrical hazards. This information will prepare you for additional safety training such as hands-on exercises and more detailed reviews of regulations for electrical work. This course is vital, as electrical safety is part of two of OSHA's top 10 most frequently cited violations.

During the training **eleven (11) topics** will be discussed:

1. **Electricity is Dangerous;**
2. **The Dangers of Electrical Shock;**
3. **Electrical Burns;**
4. **The Electrical Safety Model;**
5. **Recognizing Hazards;**
6. **Evaluating Your Risk;**
7. **Safe Work Environments;**
8. **Working on Live Circuits;**
9. **Safe Work Practices;**
10. **Electrical Protective Equipment;**
11. **Review Activity.**

Certificate : OSHAcademy Course Completion Certificate.

Required prior education : None (Target Audience: **Employee, Supervisor, Manager**).

Course Duration : 7 Hours (0.7 IACET CEUs).
