

Ergonomics Program Management (Course 722)

Ergonomics Management Training

Ergonomics related claims account for more direct accident costs than any other category. You owe it to yourself, your co-workers, and your employees to develop a strong ergonomics program. This course introduces the student to the various steps in planning and implementing a successful ergonomics program. Emphasis is placed on analyzing and controlling workplace risk factors, medical management strategies and training.

During the training **eight (8) topics** will be discussed:

1. **Setting the Stage for Action;**
2. **Analyzing the Workplace;**
3. **Identifying Risk Factors;**
4. **Ergonomics Job Hazard Analysis;**
5. **Controlling Risk Factors;**
6. **Implementing Controls;**
7. **Medical Management;**
8. **Ergonomics Education and Training.**
