

## Hearing Conservation Program Management (Course 751)

### **Hearing Conservation Training**

OSHA's hearing conservation program detailed in CFR 29 1910.95, Occupational Noise Exposure, is designed to protect workers with significant occupational noise exposures from hearing impairment even if they are subject to such noise exposures over their entire working lifetimes. The course summarizes the required components of OSHA's hearing conservation program for general industry. It covers basic concepts, evaluating exposure, controlling hazards, monitoring, audiometric testing, hearing protectors, training, and recordkeeping requirements.

During the training **six (6) topics** will be discussed:

1. **The Basics;**
2. **Evaluating Exposures;**
3. **Controlling Hazards;**
4. **Hearing Conservation Program (HCP);**
5. **Program Improvement;**
6. **Monitoring Requirements.**

**Certificate : OSHAcademy Course Completion Certificate.**

**Required prior education : None** (Target Audience: **Administrators, Supervisors, Managers**).

**Course Duration : 6 Hours** (0.6 IACET CEUs).
