

Introduction to Industrial Hygiene (Course 750)

Industrial Hygiene Training

Industrial hygiene is the science of anticipating, recognizing, evaluating, and controlling workplace conditions that may cause illness in the workplace. This training introduces how industrial hygienists use environmental monitoring and analytical methods to detect the extent of worker exposure. How to employ engineering controls, work practice controls, and other methods to control potential workplace health hazards is also discussed.

During the training **six (6) topics** will be discussed:

1. **Industrial Hygiene and OSHA;**
2. **Indoor/Outdoor Air Quality;**
3. **Chemical Hazards;**
4. **Biological Hazards;**
5. **Physical Hazards;**
6. **Ergonomic Hazards.**

Certificate : OSHAcademy Course Completion Certificate.

Required prior education : None (Target Audience: **Employee, Supervisor, Manager**).

Course Duration : 5 Hours (0.5 IACET CEUs).
