

Introduction to SEMS II (Course 907)

Offshore Safety Management Training

This course is used as a source of information and practical training tool for offshore rig safety personnel and workers. This course will help safety personnel and workers develop and maintain an effective Safety and Environmental Management System specifically for off-shore drilling rigs. The course covers each of the sections within the SEMS II rule 30 (CFR 250.1900-1933) as they appear in the regulation.

During the training **eight (8) topics** will be discussed:

1. **Goals and Objectives;**
2. **Management, Culture and Program Elements;**
3. **Analysis and Management of Change (MOC);**
4. **Program Criteria (Part 1);**
5. **Program Criteria (Part 2);**
6. **Auditing Requirements;**
7. **BSEE Evaluation;**
8. **Recordkeeping, SWA and UWA.**

Certificate : OSHAcademy Course Completion Certificate.

Required prior education : None (Target Audience: **Employee, Supervisor, Manager, Contractor**).

Course Duration : 8 Hours (0.8 IACET CEUs).
