

## Offshore Oil and Gas Safety I (Course 908)

### **Offshore Safety Training**

This is the first of a two-part introduction to offshore oil and gas platform safety practices that workers and employers can use to mitigate and eliminate hazards found on offshore oil and gas platforms. The course introduces applicable OSHA regulatory requirements, as well as industry standards and guidance aimed at identifying, preventing, and controlling exposure to hazards.

During the training **seven (7) topics** will be discussed:

1. **General Guidelines**
2. **General Guidelines (continued)**
3. **Personal Protective Equipment (PPE)**
4. **Fall Protection**
5. **Emergency Response and Notification**
6. **Fire Prevention**
7. **Medical Services and Support**

**Certificate : OSHAcademy Course Completion Certificate.**

**Required prior education : None** (Target Audience: **Employee, Supervisor, Manager, Contractor**).

**Course Duration : 6 Hours** (0.6 IACET CEUs).
