

## Oil Spill Cleanup (Course 906)

### **Oil Spill Response Training**

Oil spill cleanup workers can face potential hazards from oil byproducts, dispersants, detergents and degreasers. This course explains what an oil spill is, describes the characteristics of an oil spill, and how to identify and control hazards during the response and cleanup phases of an oil spill.

During the training **six (6) topics** will be discussed:

1. **Introduction to Oil Spill Cleanup;**
2. **What is an Oil Spill;**
3. **Affects on the Environment;**
4. **Exposure to Toxic Components;**
5. **Oil Spill Cleanup Equipment;**
6. **Oil Spill Worker Safety and Health.**

**Certificate : OSHAcademy Course Completion Certificate.**

**Required prior education : None** (Target Audience: **Employee, Supervisor, Manager, Contractor**).

**Course Duration : 5 Hours** (0.5 IACET CEUs).
