

Oil and Gas Well Inspection (Course 904)

Oil and Gas Well Inspection Training

According to the Bureau of Labor Statistics, the oil and gas extraction industry has an annual occupational fatality rate that is seven times higher than the rate for all U.S. workers. This course offers information and practical training for rig workers to conduct effective safety inspections of on-shore drilling rigs to reduce the injury and illness rates.

During the training **eleven (11) topics** will be discussed:

1. **Emergency Response Inspection Topics;**
2. **Electrical Systems and Machine Guarding;**
3. **Hand and Power Tools;**
4. **Fall Protection;**
5. **Stairways and Walkways;**
6. **Lines and Slings;**
7. **Lines and Slings (Continued);**
8. **Ladders and Platforms;**
9. **Hoses, Pins and Keepers;**
10. **Chemical Hazards;**
11. **Other Areas.**
