

Personal Protective Equipment (Course 709)

PPE Program Management

It's tough for any company to develop a safe and healthful workplace without an effective Personal Protective Equipment (PPE) program. This course offers insights on how to use personal protective equipment to protect workers when exposed to workplace hazards. Because hazards exist in every workplace, it is important for managers and supervisors to be knowledgeable about program management, hazard assessment, and training requirements.

During the training **seven (7) topics** will be discussed:

1. **General Requirements;**
2. **PPE Training Requirements;**
3. **Eye and Face Protection;**
4. **Respiratory Protection;**
5. **Head, Hand, and Foot Protection;**
6. **Electrical Protective Equipment;**
7. **Hearing Protection.**

Certificate : OSHAcademy Course Completion Certificate.

Required prior education : None (Target Audience: **Trainer, Supervisor, Manager, Safety Committee Member**).

Course Duration : 5 Hours (0.5 IACET CEUs).
