

Well Site Completion and Servicing Safety (Course 903)

Well Completion & Servicing Training

More than 450,000 workers were employed in the oil and gas industries in 2011. These workers are engaged in many different industrial processes needed to successfully drill and service a well. Safety and health hazards and dangerous conditions can result in fatalities for oil and gas workers. This course provides information on industry standards that can help you identify and prevent hazards in the dangerous oil and gas industry.

During the training **seven (7) topics** will be discussed:

1. **Well Completion Safety;**
2. **Hydraulic Fracturing;**
3. **Servicing Operations Safety;**
4. **General Services Safety;**
5. **Special Services Operations Safety;**
6. **Special Services Operations Safety (Continued);**
7. **Workover and Abandonment Operations Safety.**

Certificate : OSHAcademy Course Completion Certificate.

Required prior education : None (Target Audience: **Employee, Supervisor, Manager, Contractor**).

Course Duration : 8 Hours (0.8 IACET CEUs).
